Editorial Policy. SIGNAL PROCESSING is an Interdisciplinary Journal presenting the theory and practice of signal processing. Its primary objectives are the following:

- Dissemination of research results and of engineering developments to all signal processing groups and individuals.
- Presentation of practical solutions to current signal processing problems in engineering and science.

The editorial policy and the technical content of the Journal are the responsibility of the Editor-in-Chief and the Editorial Board. The Journal is self-supporting from subscription income and contains a minimum amount of advertisements. Advertisements are subject to the prior approval of the Editor-in-Chief. The journal welcomes contributions from every country in the world.

Scope. SIGNAL PROCESSING incorporates all aspects of the theory and practice of signal processing (analogue and digital). It features original research work, tutorial and review articles, and accounts of practical developments. It is intended for a rapid dissemination of knowledge and experience to engineers and scientists working in signal processing research, development or practical application.

Subjects. Subject areas covered by the Journal include:

Signal Theory
Stochastic Processes
Detection and Estimation
Spectral Analysis
Filtering
Signal Processing Systems
Software Developments
Image Processing
Pattern Recognition
Optical Signal Processing
Communication Signal Processing
Biomedical Signal Processing
Geophysical and Astrophysical Signal Processing
Earth Resources Signal Processing
Acoustic and Vibration Signal Processing
Data Processing
Remote Sensing
Signal Processing Technology
Speech Processing
Radar Signal Processing
Sonar Signal Processing
Special Signal Processing
Industrial Applications
New Applications

Membership and Subscription Information.
Signal Processing (ISSN 0165-1684) is published in three volumes (12 issues) a year. The subsciption price for 1990 (Volumes 19–21) is Dfl. 825.00 + Dfl. 84.00 p.p.h. = Dfl. 909.00. Our p.p.h. (postage, packing and handling) charge includes surface delivery of all issues, except to subscribers in the following countries, where air delivery (S.A.L. – Surface Air Lifted) is ensured: Argentina, Australia, Brazil, Canada, Hong Kong, India, Israel, Japan, Malaysia, Mexico, New Zealand, Pakistan, P.R. China, Singapore, South Africa, South Korea, Taiwan, Thailand, U.S.A. For the rest of the world, airmail charges are available upon request. Claims for missing issues will be honoured free of charge if made within three months after the publication date of the issues. Mail orders and inquiries to: Elsevier Science Publishers B.V., Journals Department, P.O. Box 211, 1000 AE Amsterdam, The Netherlands. For full membership information of the Association, including a subscription at a reduced rate, please contact: EURASIP, P.O. Box 134, CH-1000 Lausanne 13, Switzerland.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. This transfer will ensure the widest possible dissemination of information.
Submission of an article for publication entails the author's irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S. 351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.
Special regulations for readers in the U.S.A. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, U.S.A. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US $2.25, also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.
No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.
Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.
